3 - 5 Days	C
4 - 6 Days	D
7 - 10 Days	E
9 -12 Days	F
Limited allow	G
14 to 18 days	

To calcualte the approximate time a consignment will take to reach its destination, identify both the Origin and Destination points on the table above. Follow the lines across and down the table until both meet. Use the Letter with the Legend Key to identify the approximate time it will take to get transit from Depot to Depot.

** For example, if a package was travelling from Sydney Depot to Coober Pedy Depot, the grid reference would be Letter D and therefore the approximate Transit time would be 4 - 6 business days.
